Subject: More on the same...

Basically American intelligence along with others were in Kolozsvár when I was a young and was interested with the progress of mind control programs that the locals were running probably on their behalf or on behalf of the American client nation state. They simply went to the location based on time machine (UFO technology advice) meet up with youngsters that later would live in America and possibly have a national security significance I am 100 positive that I fall in this category...

When in England in 1990 and after I returned from my authorized 30 vacation for which my leave and earnings statements were illegally removed from my motorhome along with other Air Force documents on 04MAR2001 via an illegal search by Texas DPS where the traffic officer was partially the victim of intelligence mind control... So after I return from this so called 30 day vacation several intelligence people visited England from Chico and for whatever reason, like that I (my record, signature of brain pattern, soul) was in their intelligence database from previous visits to Kolozsvár it was decided (before my vacation) that I would not be participating in anything at all and that I would be sent back to California to another AF base to finish out my tour of service... The Chico intelligence folks were tasked with wiping my memory and since they were closely related to events from Kolozsvár it was in their best interest to wipe my memory extremely well a lynching was allowed before the wiping would take place, Jewish kids I meet in the ninth grade and the seventh grade were there, but this is difficult to remember because parts may have been out of body experiences going forward in time, out of body experience was brought on by death from the lynching, so when returning to life or even while gone from the body the memory wipe took place by killing large portions of my brain... When I returned to my body memories stored in those areas were gone, some physical therapy had to be administered to my body where I was not the one in control of it during those three weeks or so... There is a soul catcher device that can hold several souls and from there return them to various bodies, including their own... I must of been in one of these, time seems to stop when inside it...

So the reconditioned body by others, reconditioned because he lynching, was returned to my control when I reentered it then I was basically done and was headed back to California...(which I was happy to do)

But the people lynching and wiping my memory were left with that guilt and desire to forget or cover it up and never to have surface the criminal actions they take against their fellow man for the love of their country or some other patriotic crap, so here is 2006 and I moved in to this apartment complex in Chico which later becomes obvious that is an intelligence run outfit, the room next to mine has a bathroom full of electronics and attic access to above the apartment from where strong radio magnetic waves target the remainder of my brain and attempt to wipe my memory, they are doing this independently from anyone or they have gotten permission to do this based on some previously none existent threat that I might pose which now after being radiated for a year and discovered the reason for it is a valid one, that is for my defense and self preservation their safety is in serious jeopardy... The guy living next door is living with the knowledge that any time I could have a total recall of events in which he participated along with others from Chico and Enloe hospital, so this guy and his official partners are radiating my brain since moving in here... But memory storage is an interesting thing in humans...

Like your heart stores memory, your whole nervous systems stores memory, people like me who had serious damage to brain areas rebuild memory in other undamaged places of the human nervous system and continue to function normally with the dead regions of the brain where others store memory and which was killed of intentionally in my case.

This is why after radiating my brain areas for five months here they switched to radiating my entire back, neck and whole nervous system throughout my body attempting to study and find out where the new memory centers located...

There is a small local team, a helper moved in who I call the "hohér" and his job is to keep moving around the portable radiating device from bellow, several people do come up to check my neighbors progress from time to time, they even go up to the attic space, but mostly it is just the neighbor radiating and documenting anything I might protest his radiation with, and the "hohér" rent an assistant in intelligence matters when you

need one living bellow me guy...

Oh... In 2006 Jan-Feb I am quite sure that I saw "Anyu" she was sitting on a bench, could have been someone else, probably not, I did not say hello and find out for sure... but the lengths that these intelligence people will go to is unimaginable and I think it is very likely her, and she was probably tricked to come here for this reason, and since being here she was subject to great danger and torture by the people visiting Kolozsvár when I was young, and now she is probably being used to read my mind and influence my dreams, like read my mind if and weather the radiating is working, how well it is working, where I think it is working the best, when and what I am planning to retaliate with and such...

OK...

That's that for now...
