So roughly here is the latest happenings around Campbell Commons Apartments...

Not one, but two persons are up in the attic space nearly 24 hours a day, one above the kitchen and one above the bathroom and both are using recording devices that image things on the "other side of the wall" or inside my apartment and there is virtually a constant stream of gas under pressure being introduced into the apartment from behind the kitchen cabinets, I bet they even wired the place to explode an exit strategy for them, they are probably special forces people called in just to deal with my (difficult case) by onscene supervisors living here... But that would not be so bad in it of itself just to image things inside my apartment and record them, these imaging things are only the beginning minimum, on top of these all sorts of radiation is targeted at me and I guess it is to damage my health, block REM sleep, reduce telepathic communications, bring on any human emotion and prolong it for as long as the radiation (ultra-sound and infra-sound) lasts and the list goes on from here to include very precise and short but powerful bursts to brain tissue inside my skull...

Some of the very interesting Mind Control effects, and this apartment is an intelligence agency affiliated mind control (among other things) laboratory (sure turned into one) with the old guy from last (2006) may-june-july walking around with a manila folder asking me questions he could not come with on his own based on all our previous conversations, those subject matters in the questions he asked gave himself away as a retired mind control CIA officer or other intelligence organization member living in Chico since mid 1990s probably recruiting for these agencies, or whatever mind control people do, like tie up loose ends, follow up on leads... the old guy who claims to be merely two years older than me and looks like 65 and probably dual Israel citizen. ect...

So then, the rest of the story is that all these people are some sort of homosexual wing of the CIA, some of them went ahead and had sex change operation (Brazil) and now look like women, others are waiting to do that, after the hormone treatment they have no hair, they grow big breasts, really look like an average liberated "masculine" American woman but they are still men on estrogen... really sick stuff... and their favorite hobby is deceiving other men, they are not after women, so naturally they are perfect for the CIA or other groups such as them, lying and pretending things is their native tongue and they blend in great among the liberated waco clueless feminist woman of America... only the larger bone structure could possibly give them away outside a physical examination of genitals... which usually remain...

So this is it then, sick transsexual bastards with intelligence level clearance to harass and anything else they may get away with...
