Subject: Central Intelligence Agency like organizations tend to pride themselves on knowing every detail

Central Intelligence Agency like organizations tend to pride themselves on knowing every detail about a person's life just prior to hiring them or having other contacts like threatening them... such is this apartment complex in the heart of Chico... my neighbor has equipment in his bathroom that sees through the thin walls, it sees through my skin and inside my body causes uncomfortable pain, probably misaligned equipment or something, probably not intentionally causing harm to my cells living in my body... but then again this guy might mean it...

So in keeping a perfect eye on a person (victim) these intelligence organizations manipulate their recruits into such living arrangements, hiring girlfriends, and all the creative combinations and permutations that humans can do to each other for whatever reason...

Did I mention the attic space above me?

The radiating got so bad recently that I only have two places in the apartment where I can sleep and be shielded from the scanning tool, one is in front of the fridge I am shielded by the metal in the fridge, the other is in front of the bed where I am shielded by the wood making up the frame of the bed... I can detect the idiot neighbor going around his apartment on the other side of the wall trying to see if he can get me with the handheld scanner or something that can be used to see through the thin sheetrock walls but not powerful enough to go through metal and wood... As his mass moves the 2x12 joists are moving along on my side of the apartment floor and I am laying on the ground in front of the bed now for the past two weeks and able to detect his movements...

Night after night I would wake up in sweat and huge head ache when I slept on the bed with my head unshielded, he would radiate my skull for hours after I would fall asleep, next morning and all day I would have headaches, I finally figured out what he was doing and I am now sleeping on the floor shielded behind furniture...

I also went out and bought aluminum foil and mounted it on the wall, that is not enough to stop the radiation you would need lead shielding about 1/16 thick, I don't have that...

The guy is working for local idiots who are working for higher up intelligence idiots...

No, they don't want to hire me, I would never work for them, they know this, it is simply about harming me, getting even, eliminating threats (me), oh always an important one trying to get me to over-react so they can stick me in some jail for 5 years!!!! Also billing someone or some country for their harassing services that really started in 1995-1996 time frame... This is important because billing someone or some country is always very important, it is like a tit for tat back and forth harming people all along...

So that is all, so far I had carbon monoxide, cigarette smoke and harmful radiation come at me since living here.... but only the radiation is the lasting of them all, it endures, it slowly kills, it ages your body, it is hard to detect, the person radiating is immune from prosecution, he could be a low IQ social security recipient borderline mental patient but out of hospital and no repercussions can be taken against him, or the people directing his actions whom are always far enough away to be safe, they have the excuse we are just doing a job, for a security clearance you have to go through fire and be tested in all sorts of ways, except for me the perpetual harmful tests are the only tests ever given to me...

These people are such losers.... they are not respected they are feared.... that is all they have.... trillions of dollars and they are feared never respected....

The whole apartment complex tenants living here as I said before are some sort of three letter agency

referrals, either like secret witness program participants, or background investigative services and contractors, or jews or homosexuals or some sort of victim group status individuals... Chico is one of those quiet places that the FBI and other three letter agencies can operate without anyone ever suspecting them to be here...

Anyway, I will let you know how things will turn out...

The veteran house in Chico was a small setup, this is a bigger version or continuation of that...

This is mostly about damaging my health, getting me to over-react, finding things to blackmail me with, sending me off to jail for 15 years, or using me as christian cannon fodder by the jews against the muslims...

Those are the choices...

-tibor
