**Subject:** Radiations seem stronger and more frequent with odorless gas (nightly after falling asleep...)

So in 1990 after returning from the authorized charged leave 30 day vacation in England within the USAF the serious lynching occurred which was not justified, and as a result of I experienced the standard out of body experiences - where momentarily I was in control of those peoples bodies whose I found myself in (future-present-past), about twenty thousand, none that really matter, but after returning to my own body many things have changed because not all of my obo experiences were in the future from 1990... some things have changed in the past of 1990 because of my "unjust death" causing the obo experiences needing me to be returned into my body of 1990...

Officials were not happy about it, but, it was not my fault, and nothing that they could do about it... yet here we are 2007 and since returning to Chico (one is either with them or against them) mentality is in full effect...

Plus local Chico intelligence (cia) people think they have control over the situation with respect to obo but they are not even close, and as time goes on it will be much worse for them...

Hence the damaging radiation, 2-3 people nearly all the time using see trough walls technology to target the radiation, and they radiate as much as possible only stooping when I take notice or wake up, probably use some alternative motivation "disrupting dreaming states" justification but it is futile, what is done in the past won't change for them, they know this and the radiation is to reduce health and decrease life length...
