I believe that when I wrote this message that I am forwarding at 0330 Hrs on 23-FEB-2007 it was exactly (+/-) fifteen minutes of 0330Hrs when the person that was tortured, probably sexually as well as psychologically from about JUN-2006 to FEB-2007, well, to put it mildly I think the torturers finally decided to execute the probably female victim, probably using a plastic bad with chemicals in it over the head this probably came as a relief from the months long torture that the captive person had to endure in the attic space above the third floor apartments here... I was alerted to all this several times over the several month long tortures from sounds of torture and bringing the victim to near death numerous times using torture and sounds of forceful sexual activity preceding each time, all times difficult to trace where it came from and then finally I realized the sounds came from above the apartments to the west of my apartment, above core tenants that have moved in here since the place opened 12 years ago...

All that ended on 23-FEB-2007 and I was very motivated to write that e-mail at that time 0330 Hrs because I believe that the person was intentionally executed at that time... of course I was woken up from sleep when it happened...

Also, very powerful formaldehyde preservative and decaying body smells came out of apartment 305 (my neighbor with the bathroom access to the above apartments attic spaces)... So... What could that mean?? Probably just trying to hide the decomposing body smells, probably hacking it up into little pieces and getting rid of the "no-name" tortured person... Probably no-one will miss the individual... Probably decomposing the body with acid piece by piece and flushing it down the drain... I am not joking...

Smart money says that I have stumbled into the laboratory of this type of domestic CIA type agencies by living here at this apartment complex... the attempts to use trigger words that was thought to have been previously installed in my mind via torture was just the first clue that came last summer (may-jun 2006)...

Here now I am a guinea pig being tested, the test is that in the attic space is secretly housing captive people (against their will) with telepathic abilities, like MOM and she is a prisoner because she was tricked into coming to Chico, and she was tortured and now she is used as a test subject feed recorded brainwaves like the movie BRAINSTORM and I am the recipient of the images that come through our telepathic connections (mom and I) where I am having bad dreams or good dreams depending on what the secret ESP experimenters feed the mind of the helpless victim in the attic space areas above us here where at least four apartments (above core tenants) worth of attic space to the west of my apartment is suspicious to be used as a candlestone room...

Then they observe the effects and judge or grade the received telephatic messages that I get based on the things forcibly played in the mind of the victim who I believe to be MOM.... in 1990 when in UK with Air Force a defense intelligence (CIA) psychologist was interested in me as a test subject...

China and other countries with limited human rights have advanced programs...

Here it is live experiments on me how much of a receiver I am...

The torture sounds are real, they are not coming from bathrooms bellow or children playing outside they are coming from four apartments worth of attic space above me to the west, the victims of these assholes are middle age woman... the mind recordings they are feed are horrible of the worst kind, they are created by feeding exactly the wrong tones to mental patients in hospitals and recording their induced horrible imagination states or brainwaves and playing them back in military applications such as these....

Certain tones (binaural) or differences in tones produce brain waves, anything from happiness to sadness, uncontrollable in unstable mental patients and their horrible imaginations are recorded and played back in the brains of normal people who are being tortured...

OK...

Just had to get this out in the middle of the night....

Chico having an abundant of doctors and hospital or medical establishments is prime real estate for DIA type experimenters...
