Never used the words "feels like"...

more accurate to say that about three weeks ago a switch was made to more harmful and less noticeable on your body type of radiation that is still very much ongoing...

also, the local Chico JEWS are behind all of this and are watching me like a hawk since 1995...

and this IS a jewish intelligence operation, they need more men for all their covert operations, not just against the arabs...

to be more correct, it is like a "perpetual motion machine" a "for ever" jewish intelligence operation that started with me in 1990 with my pre Iraq Gulf War visit to England where as I already said in my writings my skull was cracked and I had out of body experiences mostly into the future...

and my 1995 visit to Area-51 north of Las Vegas was the second event in recent memory that put me on the map...

The visit in 1995 to Area-51 is the event "after which" authorized covert actions began to be taken against me... because of this and for the possible confusion that could be created I filled out paperwork that would otherwise indicate my interest in working for American intelligence groups... hoping that enough confusion would be generated to deflect the perpetual harassment's that I experienced after returning from the Area-51 visit... and it has worked...

in 2000 I wrote to the Air Force as much as possible about the 1990 event in England and the other unusual things up to that date and possible future attacks which came true... so that put me on the map as well...

But now the JEWS need more men to harass arabs (and others)...

so Chico in my opinion is an intelligence - counterintelligence town where businesses seems to open and close that otherwise make no financial sense but possibly sweetheart sense and the university is here and the whole area is like a dream vacation or easy living area that would attract retired or active intelligence people with their budgets to live here young and in their later years, and much more along these lines, wouldn't it be great if there was an office for these people to hang out in laid back Chico (put their time in until "retirement") and not have to go live and work in the Bay Area or other hellish big city places around the world, why we can generate much needed work for them by paroling felons to Chico, and even justify their existence here in this small town to a point...

but mostly counterintelligence, future preparation, coercion or paybacks...

oh... and of course the mail is read... plus all of my mail and letters which was on a 2gb USB key chain drive was cleverly (opportunistically) stolen by three teenagers which had all of my mail and letters backed up up to that day... so something like that neatly organized and archived floating around out there is interesting to say the least...
